The Maine Department of Labor provides equal opportunity in employment and programs. Auxiliary aids and services provided upon request to individuals with disabilities. Telephone (207) 623-7900, FAX (207) 287-2947, TTY 1-800-794-1110

## Preface

We wish to express our sincere appreciation to all Maine employers who responded to the **Occupational Employment Statistics** (OES) survey. It is their ongoing participation and collaboration that makes it possible for us to produce this valuable tool to support compensation planning and analysis, the formation of effective human resource strategies, and the provision of economic development tools supporting new business locations and firm expansion decisions.

This report contains wage rates for more than 600 distinct occupations, coded to the Standard Occupational Classification used nationwide for defining occupations. You may use this report to compare wage rates across the metropolitan areas of Bangor, Lewiston-Auburn, Portland, or Maine's 16 counties, with those reported statewide. Users may compare Maine wage rates with those of other states or metropolitan areas through the U.S. Bureau of Labor Statistics web site ([www.bls.gov/oes](http://www.bls.gov/oes)), which covers all 50 states, the District of Columbia, Guam, Puerto Rico, and the Virgin Islands. Technical notes, occupational definitions, and downloadable Excel data files are also available there. This comparative analysis is possible due to the use of a standardized methodology that ensures statistical validity between regions and across industries. Very few if any compensation surveys meet the validity and response rate standards of the Occupational Employment Statistics program. We are constantly striving to improve both its accuracy and its relevance for supporting the decisions of individuals, businesses, and economic development planners.

Please call (207) 623-7900 if you have any questions regarding products or services provided by the Center for Workforce Research and Information. Please contact Merrill Huhtala at (207) 621-5196 if you have any questions regarding this report, or the availability of additional wage information specific to your industry or occupation.

Current Maine labor statistics and information are available through our web site, at:

## Introduction

The Occupational Employment Statistics (OES) survey produces occupational employment and wage estimates for the nation, each of the 50 states, and most metropolitan statistical areas (MSAs). Tables for Maine (statewide), the metropolitan statistical areas (MSAs) of Bangor, Lewiston-Auburn, and Portland-South Portland-Biddeford, and each Maine county are provided. Occupational listings are sorted by Standard Occupational Classification (SOC), arranged by job function within 22 major occupational groups. An alphabetical listing is provided at the end of this publication.

Maine county-level tables are a product of the Estimates Delivery System, a software application that allows us to produce statistically valid estimates for areas other than those defined by the Bureau of Labor Statistics. The county-level tables represent an extension to the official Occupational Employment Statistics data series, and have not been reviewed or validated by the Bureau of Labor Statistics.

The OES survey categorizes workers into the Standard Occupational Classification (SOC), which is used by Federal agencies responsible for occupational analysis. The SOC structure consists of 821 detailed occupations. These detailed occupations comprise 22 major occupational groups. Military occupations are not included. While not all 821 detailed occupations are represented in Maine, this report contains over 600 occupational entries at the statewide level.

The May, 2006 OES estimates are based on data collected during the May, 2006, November and May, 2005, November and May, 2004, and November, 2003 surveys. Employment estimates are benchmarked to the average employment of November, 2005-May, 2006. Wage estimates are benchmarked to May, 2006 through use of the Employment Cost Index (ECI) for each ECI occupational group.

The following information is provided:

### **SOC Code**

The Standard Occupational Classification code identifies each occupation. It is useful for obtaining additional information from O\*Net, the Occupational Outlook Handbook, America's Career One-Stop, or other sources of occupational information.

### **Standard Occupational Classification (SOC) Title**

The occupational title assigned to the classification.

### **Estimated Employment**

Occupational employment estimate for the specified area, benchmarked to the average employment of November, 2005-May, 2006.

### **Mean (Average)**

This figure is the weighted average. It is the estimated total wages for an occupation divided by its weighted employment.

### **Entry**

Derived by calculating the mean (average) of the lower third of the population.

### **Experienced**

This is the mean (average) of the upper two-thirds of the population.

### **10<sup>th</sup> Percentile**

Ten percent of employees in the specified occupation earn less than this figure, while 90 percent earn more.

### **25<sup>th</sup> Percentile**

This is the lower boundary of the mid-range. Twenty-five percent of all employees in an occupation earn less and 75 percent earn more.

### **Median**

This is the 50<sup>th</sup> percentile, or mid-point. One-half of employees in the specified occupation earn less, and one-half earn more than this amount.

### **75<sup>th</sup> Percentile**

This is the upper boundary of the mid-range. Seventy-five percent of all employees in an occupation earn less and 25 percent earn more.

### **90<sup>th</sup> Percentile**

Ten percent of employees in the specified occupation earn above this figure, while 90 percent earn less.

### **Relative Error- Mean**

This is the percentage in which the true mean wage might differ from the published estimate. The lower the error, the more reliable the associated estimate.

### **Relative Error-Employment**

This is the percentage in which true employment might differ from the published estimate. The lower the error, the more reliable the associated estimate of employment. This figure is not provided in the county tables

### **Sample**

The sampling frame for the May, 2006 OES survey was the 2<sup>nd</sup> Quarter 2005 Quarterly Census of Employment and Wages (QCEW) Report covered by the Maine Employment Security Law. Owners of unincorporated firms (sole proprietorships and partnerships) and those who are self-employed were excluded. Data on occupational employment and wages are collected from employers of every size in all areas of the state and in all industry divisions. The sample consisted of 1,438 units (after adjusting for out-of-business units) representing 57,707 workers. Of these, we received usable responses from 1,132 units (78.7 percent) representing 45,794 workers (79.4 percent).

### **Wage Collection**

Wages for the OES survey are straight-time, gross pay, exclusive of premium pay. **Included** are base rate, cost-of-living allowances, longevity pay, guaranteed pay, hazardous-duty pay, incentive pay including commissions and production bonuses, tips, and on-call pay. **Excluded** are back pay, jury duty pay, overtime pay, severance pay, shift differentials, nonproduction bonuses, profit sharing, attendance, holiday and year-end bonuses, and tuition reimbursements.

The OES survey collects wage data in 12 intervals. Employers report the number of employees in an occupation per each wage range. The wage intervals effective November 2005 are as follows:

<b>Interval</b>	<b>Hourly Wages</b>	<b>Annual Wages</b>
Range A	Under \$7.50	Under \$15,600
Range B	\$7.50 to \$9.49	\$15,600 to \$19,759
Range C	\$9.50 to \$11.99	\$19,760 to \$24,959
Range D	\$12.00 to \$15.24	\$24,960 to \$31,719
Range E	\$15.25 to \$19.24	\$31,720 to \$40,039
Range F	\$19.25 to \$24.49	\$40,040 to \$50,959
Range G	\$24.50 to \$30.99	\$50,960 to \$64,479
Range H	\$31.00 to \$39.24	\$64,480 to \$81,639
Range I	\$39.25 to \$49.74	\$81,640 to \$103,749
Range J	\$49.75 to \$63.24	\$103,480 to 131,559
Range K	\$63.25 to \$79.99	\$131,560 to \$166,399
Range L	\$80.00 and over	\$166,400 and over

#### **Data Limitations**

The wage ranges used in the OES program are open-ended at both the lower and upper spectrum, the lowest range being less than \$7.50 per hour and the highest range being \$80.00 and over per hour. The lowest range has a low boundary equal to the state's minimum wage, which was \$6.50 in Maine as of the survey reference date of May 12, 2006. Wage estimates denoted by an asterisk (\*) are outside the limits of the wage estimation program, and are not available.

Some estimates have been determined to be unreliable due to high relative errors, or are not disclosable for other reasons. In these instances, a double asterisk (\*\*) appears to denote that the estimate is not available.

Data that do not meet statistical validity or publication standards are not provided.

## **Occupational Structure**

Standard Occupational Classification (SOC) Major Occupational Groups:

- 11-0000 Management Occupations
- 13-0000 Business and Financial Operations Occupations
- 15-0000 Computer and Mathematical Occupations
- 17-0000 Architecture and Engineering Occupations
- 19-0000 Life, Physical, and Social Science Occupations
- 21-0000 Community and Social Service Occupations
- 23-0000 Legal Occupations
- 25-0000 Education, Training, and Library Occupations
- 27-0000 Art, Design, Entertainment, Sports, and Media Occupations
- 29-0000 Healthcare Practitioners and Technical Occupations
- 31-0000 Healthcare Support Occupations
- 33-0000 Protective Service Occupations
- 35-0000 Food Preparation and Serving Related Occupations
- 37-0000 Building and Grounds Cleaning and Maintenance Occupations
- 39-0000 Personal Care and Service Occupations
- 41-0000 Sales and Related Occupations
- 43-0000 Office and Administrative Support Occupations
- 45-0000 Farming, Fishing, and Forestry Occupations
- 47-0000 Construction and Extraction Occupations
- 49-0000 Installation, Maintenance, and Repair Occupations
- 51-0000 Production Occupations
- 53-0000 Transportation and Material Moving Occupations
- 55-0000 Military Specific Occupations (Not Surveyed by OES)

Westbrook  
Windham  
Yarmouth

Somerset  
Waldo  
Washington  
York

**Southwest Balance of State (B.O.S.)**

Androscoggin County (except Lewiston-Auburn MSA)  
Cumberland County (except Portland-S.Portland-  
Biddeford MSA)  
Franklin County  
Kennebec County  
Knox County  
Oxford County  
Sagadahoc County  
Somerset County  
Waldo County (except Winterport and Frankfort)  
York County (except towns in Portsmouth, Rochester,  
and Portland-S.Portland-Biddeford MSAs)

## **Internet Resources for Occupational Wages and Labor Market Information**

### **Center for Workforce Research and Information:**

[www.maine.gov/labor/lmis](http://www.maine.gov/labor/lmis)

Maintained by our office (formerly the Division of Labor Market Information Services) Current labor statistics for Maine, and resources for job seekers, employers, researchers, and others interested in Maine labor market information.

### **Occupational Employment Statistics (OES) homepage:**

[www.bls.gov/oes/](http://www.bls.gov/oes/)

This web site is maintained by the U.S. Department of Labor, Bureau of Labor Statistics. Current and archived mean and median wage rates for the nation, each of the 50 states, Guam, Puerto Rico, the U.S. Virgin Islands, and most Metropolitan Statistical Areas are available. Also offered are downloadable Excel files, technical notes, and additional information not posted elsewhere.

### **America's Career One-Stop:**

<http://www.careeronestop.org>

Labor market information, employer directories, and job listings nationwide.

### **Occupational Employment Projections:**

<http://www.projectionscentral.com>

This site provides 2004-2014 occupational employment projections and job outlook information for all 50 states.

Source: Maine Department of Labor, Labor Market Information Services, Occupational Employment Statistics (OES) program, May 2006 data set. Table created 15 August 2007.												
<b>Notes:</b>												
1. An asterisk (*) appears when a wage rate is outside the range that can be calculated by the survey processing program.												
2. A double asterisk (**) appears when an employment or wage estimate does not meet disclosure requirements established by the U.S. Bureau of Labor Statistics.												
3. Only annual wages are provided for teachers, aircraft pilots, and certain other occupations for which hourly rates cannot be accurately calculated.												
4. Hourly rates may be converted to annual by multiplying the hourly rate by 2,080. This represents a standard work week of 40 hours, 52 weeks per year.												
5. Relative Error is the difference between the published estimate and the actual population value. It is expressed as a percent. Lower errors imply more accurate estimates.												
6. Occupational employment at the detail level will not add to totals due to rounding, as well as the suppression of non-disclosable data.

Source: Maine Department of Labor, Labor Market Information Services, Occupational Employment Statistics program, May 2006 data set. Table created 05 September 2007.

**Notes:**

1. An asterisk (\*) appears when a wage rate is outside the range that can be calculated by the survey processing program.
2. A double asterisk (\*\*) appears when an employment or wage estimate does not meet disclosure requirements established by the U.S. Bureau of Labor Statistics.
3. Only annual wages are provided for teachers, aircraft pilots, and certain other occupations for which hourly rates cannot be accurately calculated.
4. Hourly rates may be converted to annual by multiplying the hourly rate by 2,080. This represents a standard work week of 40 hours, 52 weeks per year.
5. Relative Error is the difference between the published estimate and the actual population value. It is expressed as a percent. Lower errors imply more accurate estimates.
6. Occupational employment at the detail level will not add to totals due to rounding, as well as the suppression of non-disclosable data.

Source: Maine Department of Labor, Labor Market Information Services, Occupational Employment Statistics program, May 2006 data set. Table created 05 September 2007.												
<b>Notes:</b>												
1. An asterisk (*) appears when a wage rate is outside the range that can be calculated by the survey processing program.												
2. A double asterisk (**) appears when an employment or wage estimate does not meet disclosure requirements established by the U.S. Bureau of Labor Statistics.												
3. Only annual wages are provided for teachers, aircraft pilots, and certain other occupations for which hourly rates cannot be accurately calculated.												
4. Hourly rates may be converted to annual by multiplying the hourly rate by 2,080. This represents a standard work week of 40 hours, 52 weeks per year.												
5. Relative Error is the difference between the published estimate and the actual population value. It is expressed as a percent. Lower errors imply more accurate estimates.												
6. Occupational employment at the detail level will not add to totals due to rounding, as well as the suppression of non-disclosable data.

Source: Maine Department of Labor, Labor Market Information Services, Estimates Delivery System Custom Report, May 2006 data set. Table created 05 September 2007.

**Notes:**

1. An asterisk (\*) appears when a wage rate is outside the range that can be calculated by the survey processing program.
2. A double asterisk (\*\*) appears when an employment or wage estimate does not meet disclosure requirements established by the U.S. Bureau of Labor Statistics.
3. Only annual wages are provided for teachers, aircraft pilots, and certain other occupations for which hourly rates cannot be accurately calculated.
4. Hourly rates may be converted to annual by multiplying the hourly rate by 2,080. This represents a standard work week of 40 hours, 52 weeks per year.
5. Relative Error is the difference between the published estimate and the actual population value. It is expressed as a percent. Lower errors imply more accurate estimates.
6. Occupational employment at the detail level will not add to totals due to rounding, as well as the suppression of non-disclosable data.

Source: Maine Department of Labor, Labor Market Information Services, Estimates Delivery System (EDS) generated report, May 2006 data set. Table created 15 August 2007.												
<b>Notes:</b>												
1. An asterisk (*) appears when a wage rate is outside the range that can be calculated by the survey processing program.												
2. A double asterisk (**) appears when an employment or wage estimate does not meet disclosure requirements established by the U.S. Bureau of Labor Statistics.												
3. Only annual wages are provided for teachers, aircraft pilots, and certain other occupations for which hourly rates cannot be accurately calculated.												
4. Hourly rates may be converted to annual by multiplying the hourly rate by 2,080. This represents a standard work week of 40 hours, 52 weeks per year.												
5. Relative Error is the difference between the published estimate and the actual population value. It is expressed as a percent. Lower errors imply more accurate estimates.												
6. Occupational employment at the detail level will not add to totals due to rounding, as well as the suppression of non-disclosable data.

Source: Maine Department of Labor, Labor Market Information Services, Estimates Delivery System Custom Report, May 2006 data set. Table created 05 September 2007.

Notes:

1. An asterisk (\*) appears when a wage rate is outside the range that can be calculated by the survey processing program.
2. A double asterisk (\*\*) appears when an employment or wage estimate does not meet disclosure requirements established by the U.S. Bureau of Labor Statistics.
3. Only annual wages are provided for teachers, aircraft pilots, and certain other occupations for which hourly rates cannot be accurately calculated.
4. Hourly rates may be converted to annual by multiplying the hourly rate by 2,080. This represents a standard work week of 40 hours, 52 weeks per year.
5. Relative Error is the difference between the published estimate and the actual population value. It is expressed as a percent. Lower errors imply more accurate estimates.
6. Occupational employment at the detail level will not add to totals due to rounding, as well as the suppression of non-disclosable data.

Source: Maine Department of Labor, Labor Market Information Services, Estimates Delivery System Custom Report, May 2006 data set. Table created 05 September 2007.

**Notes:**

1. An asterisk (\*) appears when a wage rate is outside the range that can be calculated by the survey processing program.
2. A double asterisk (\*\*) appears when an employment or wage estimate does not meet disclosure requirements established by the U.S. Bureau of Labor Statistics.
3. Only annual wages are provided for teachers, aircraft pilots, and certain other occupations for which hourly rates cannot be accurately calculated.
4. Hourly rates may be converted to annual by multiplying the hourly rate by 2,080. This represents a standard work week of 40 hours, 52 weeks per year.
5. Relative Error is the difference between the published estimate and the actual population value. It is expressed as a percent. Lower errors imply more accurate estimates.
6. Occupational employment at the detail level will not add to totals due to rounding, as well as the suppression of non-disclosable data.

Source: Maine Department of Labor, Labor Market Information Services, Estimates Delivery System Custom Report, May 2006 data set. Table created 05 September 2007.

**Notes:**

1. An asterisk (\*) appears when a wage rate is outside the range that can be calculated by the survey processing program.
2. A double asterisk (\*\*) appears when an employment or wage estimate does not meet disclosure requirements established by the U.S. Bureau of Labor Statistics.
3. Only annual wages are provided for teachers, aircraft pilots, and certain other occupations for which hourly rates cannot be accurately calculated.
4. Hourly rates may be converted to annual by multiplying the hourly rate by 2,080. This represents a standard work week of 40 hours, 52 weeks per year.
5. Relative Error is the difference between the published estimate and the actual population value. It is expressed as a percent. Lower errors imply more accurate estimates.
6. Occupational employment at the detail level will not add to totals due to rounding, as well as the suppression of non-disclosable data.

Source: Maine Department of Labor, Labor Market Information Services, Estimates Delivery System Custom Report, May 2006 data set. Table created 05 September 2007.

**Notes:**

1. An asterisk (\*) appears when a wage rate is outside the range that can be calculated by the survey processing program.
2. A double asterisk (\*\*) appears when an employment or wage estimate does not meet disclosure requirements established by the U.S. Bureau of Labor Statistics.
3. Only annual wages are provided for teachers, aircraft pilots, and certain other occupations for which hourly rates cannot be accurately calculated.
4. Hourly rates may be converted to annual by multiplying the hourly rate by 2,080. This represents a standard work week of 40 hours, 52 weeks per year.
5. Relative Error is the difference between the published estimate and the actual population value. It is expressed as a percent. Lower errors imply more accurate estimates.
6. Occupational employment at the detail level will not add to totals due to rounding, as well as the suppression of non-disclosable data.

Source: Maine Department of Labor, Labor Market Information Services, Estimates Delivery System (EDS) generated report, May 2006 data set. Table created 31 August 2007.												
<b>Notes:</b>												
1. An asterisk (*) appears when a wage rate is outside the range that can be calculated by the survey processing program.												
2. A double asterisk (**) appears when an employment or wage estimate does not meet disclosure requirements established by the U.S. Bureau of Labor Statistics.												
3. Only annual wages are provided for teachers, aircraft pilots, and certain other occupations for which hourly rates cannot be accurately calculated.												
4. Hourly rates may be converted to annual by multiplying the hourly rate by 2,080. This represents a standard work week of 40 hours, 52 weeks per year.												
5. Relative Error is the difference between the published estimate and the actual population value. It is expressed as a percent. Lower errors imply more accurate estimates.												
6. Occupational employment at the detail level will not add to totals due to rounding, as well as the suppression of non-disclosable data.

Source: Maine Department of Labor, Labor Market Information Services, Estimates Delivery System Custom Report, May 2006 data set. Table created 05 September 2007.

**Notes:**

1. An asterisk (\*) appears when a wage rate is outside the range that can be calculated by the survey processing program.
2. A double asterisk (\*\*) appears when an employment or wage estimate does not meet disclosure requirements established by the U.S. Bureau of Labor Statistics.
3. Only annual wages are provided for teachers, aircraft pilots, and certain other occupations for which hourly rates cannot be accurately calculated.
4. Hourly rates may be converted to annual by multiplying the hourly rate by 2,080. This represents a standard work week of 40 hours, 52 weeks per year.
5. Relative Error is the difference between the published estimate and the actual population value. It is expressed as a percent. Lower errors imply more accurate estimates.
6. Occupational employment at the detail level will not add to totals due to rounding, as well as the suppression of non-disclosable data.

Source: Maine Department of Labor, Labor Market Information Services, Estimates Delivery System Custom Report, May 2006 data set. Table created 05 September 2007.

**Notes:**

1. An asterisk (\*) appears when a wage rate is outside the range that can be calculated by the survey processing program.
2. A double asterisk (\*\*) appears when an employment or wage estimate does not meet disclosure requirements established by the U.S. Bureau of Labor Statistics.
3. Only annual wages are provided for teachers, aircraft pilots, and certain other occupations for which hourly rates cannot be accurately calculated.
4. Hourly rates may be converted to annual by multiplying the hourly rate by 2,080. This represents a standard work week of 40 hours, 52 weeks per year.
5. Relative Error is the difference between the published estimate and the actual population value. It is expressed as a percent. Lower errors imply more accurate estimates.
6. Occupational employment at the detail level will not add to totals due to rounding, as well as the suppression of non-disclosable data.

Source: Maine Department of Labor, Labor Market Information Services, Estimates Delivery System Custom Report, May 2006 data set. Table created 05 September 2007.

**Notes:**

1. An asterisk (\*) appears when a wage rate is outside the range that can be calculated by the survey processing program.
2. A double asterisk (\*\*) appears when an employment or wage estimate does not meet disclosure requirements established by the U.S. Bureau of Labor Statistics.
3. Only annual wages are provided for teachers, aircraft pilots, and certain other occupations for which hourly rates cannot be accurately calculated.
4. Hourly rates may be converted to annual by multiplying the hourly rate by 2,080. This represents a standard work week of 40 hours, 52 weeks per year.
5. Relative Error is the difference between the published estimate and the actual population value. It is expressed as a percent. Lower errors imply more accurate estimates.
6. Occupational employment at the detail level will not add to totals due to rounding, as well as the suppression of non-disclosable data.

Source: Maine Department of Labor, Labor Market Information Services, Estimates Delivery System Custom Report, May 2006 data set. Table created 05 September 2007.												
<b>Notes:</b>												
1. An asterisk (*) appears when a wage rate is outside the range that can be calculated by the survey processing program.												
2. A double asterisk (**) appears when an employment or wage estimate does not meet disclosure requirements established by the U.S. Bureau of Labor Statistics.												
3. Only annual wages are provided for teachers, aircraft pilots, and certain other occupations for which hourly rates cannot be accurately calculated.												
4. Hourly rates may be converted to annual by multiplying the hourly rate by 2,080. This represents a standard work week of 40 hours, 52 weeks per year.												
5. Relative Error is the difference between the published estimate and the actual population value. It is expressed as a percent. Lower errors imply more accurate estimates.												
6. Occupational employment at the detail level will not add to totals due to rounding, as well as the suppression of non-disclosable data.

Source: Maine Department of Labor, Labor Market Information Services, Estimates Delivery System Custom Report, May 2006 data set. Table created 06 September 2007.												
<b>Notes:</b>												
1. An asterisk (*) appears when a wage rate is outside the range that can be calculated by the survey processing program.												
2. A double asterisk (**) appears when an employment or wage estimate does not meet disclosure requirements established by the U.S. Bureau of Labor Statistics.												
3. Only annual wages are provided for teachers, aircraft pilots, and certain other occupations for which hourly rates cannot be accurately calculated.												
4. Hourly rates may be converted to annual by multiplying the hourly rate by 2,080. This represents a standard work week of 40 hours, 52 weeks per year.												
5. Relative Error is the difference between the published estimate and the actual population value. It is expressed as a percent. Lower errors imply more accurate estimates.												
6. Occupational employment at the detail level will not add to totals due to rounding, as well as the suppression of non-disclosable data.

Source: Maine Department of Labor, Labor Market Information Services, Estimates Delivery System Custom Report, May 2006 data set. Table created 06 September 2007.

**Notes:**

1. An asterisk (\*) appears when a wage rate is outside the range that can be calculated by the survey processing program.
2. A double asterisk (\*\*) appears when an employment or wage estimate does not meet disclosure requirements established by the U.S. Bureau of Labor Statistics.
3. Only annual wages are provided for teachers, aircraft pilots, and certain other occupations for which hourly rates cannot be accurately calculated.
4. Hourly rates may be converted to annual by multiplying the hourly rate by 2,080. This represents a standard work week of 40 hours, 52 weeks per year.
5. Relative Error is the difference between the published estimate and the actual population value. It is expressed as a percent. Lower errors imply more accurate estimates.
6. Occupational employment at the detail level will not add to totals due to rounding, as well as the suppression of non-disclosable data.

Source: Maine Department of Labor, Labor Market Information Services, Estimates Delivery System Custom Report, May 2006 data set. Table created 06 September 2007.

**Notes:**

1. An asterisk (\*) appears when a wage rate is outside the range that can be calculated by the survey processing program.
2. A double asterisk (\*\*) appears when an employment or wage estimate does not meet disclosure requirements established by the U.S. Bureau of Labor Statistics.
3. Only annual wages are provided for teachers, aircraft pilots, and certain other occupations for which hourly rates cannot be accurately calculated.
4. Hourly rates may be converted to annual by multiplying the hourly rate by 2,080. This represents a standard work week of 40 hours, 52 weeks per year.
5. Relative Error is the difference between the published estimate and the actual population value. It is expressed as a percent. Lower errors imply more accurate estimates.
6. Occupational employment at the detail level will not add to totals due to rounding, as well as the suppression of non-disclosable data.

Source: Maine Department of Labor, Labor Market Information Services, Estimates Delivery System Custom Report, May 2006 data set. Table created 06 September 2007.

**Notes:**

1. An asterisk (\*) appears when a wage rate is outside the range that can be calculated by the survey processing program.
2. A double asterisk (\*\*) appears when an employment or wage estimate does not meet disclosure requirements established by the U.S. Bureau of Labor Statistics.
3. Only annual wages are provided for teachers, aircraft pilots, and certain other occupations for which hourly rates cannot be accurately calculated.
4. Hourly rates may be converted to annual by multiplying the hourly rate by 2,080. This represents a standard work week of 40 hours, 52 weeks per year.
5. Relative Error is the difference between the published estimate and the actual population value. It is expressed as a percent. Lower errors imply more accurate estimates.
6. Occupational employment at the detail level will not add to totals due to rounding, as well as the suppression of non-disclosable data.

Source: Maine Department of Labor, Labor Market Information Services, Estimates Delivery System Custom Report, May 2006 data set. Table created 06 September 2007.

**Notes:**

1. An asterisk (\*) appears when a wage rate is outside the range that can be calculated by the survey processing program.
2. A double asterisk (\*\*) appears when an employment or wage estimate does not meet disclosure requirements established by the U.S. Bureau of Labor Statistics.
3. Only annual wages are provided for teachers, aircraft pilots, and certain other occupations for which hourly rates cannot be accurately calculated.
4. Hourly rates may be converted to annual by multiplying the hourly rate by 2,080. This represents a standard work week of 40 hours, 52 weeks per year.
5. Relative Error is the difference between the published estimate and the actual population value. It is expressed as a percent. Lower errors imply more accurate estimates.
6. Occupational employment at the detail level will not add to totals due to rounding, as well as the suppression of non-disclosable data.

**Notes:**

1. An asterisk (\*) appears when a wage rate is outside the range that can be calculated by the survey processing program.
2. A double asterisk (\*\*) appears when an employment or wage estimate does not meet disclosure requirements established by the U.S. Bureau of Labor Statistics.
3. Only annual wages are provided for teachers, aircraft pilots, and certain other occupations for which hourly rates cannot be accurately calculated.
4. Hourly rates may be converted to annual by multiplying the hourly rate by 2,080. This represents a standard work week of 40 hours, 52 weeks per year.
5. Relative Error is the difference between the published estimate and the actual population value. It is expressed as a percent. Lower errors imply more accurate estimates.
6. Occupational employment at the detail level will not add to totals due to rounding, as well as the suppression of non-disclosable data.

Occupational Employment and Wage Estimates for Maine Southwest Balance of State, May 2006

Source: Maine Department of Labor, Labor Market Information Services, Estimates Delivery System Custom Report, May 2006 data set. Table created 06 September 2007.												
<b>Notes:</b>												
1. An asterisk (*) appears when a wage rate is outside the range that can be calculated by the survey processing program.												
2. A double asterisk (**) appears when an employment or wage estimate does not meet disclosure requirements established by the U.S. Bureau of Labor Statistics.												
3. Only annual wages are provided for teachers, aircraft pilots, and certain other occupations for which hourly rates cannot be accurately calculated.												
4. Hourly rates may be converted to annual by multiplying the hourly rate by 2,080. This represents a standard work week of 40 hours, 52 weeks per year.												
5. Relative Error is the difference between the published estimate and the actual population value. It is expressed as a percent. Lower errors imply more accurate estimates.												
6. Occupational employment at the detail level will not add to totals due to rounding, as well as the suppression of non-disclosable data.												

## Alphabetical List of Occupations

<i>Standard Occupational Classification-Occupational Title</i>	<i>SOC Code</i>
Accountants and Auditors	13-2011
Actors	27-2011
Actuaries	15-2011
Administrative Law Judges, Adjudicators, and Hearing Officers	23-1021
Administrative Services Managers	11-3011
Adult Literacy, Remedial Education, and GED Teachers and Instructors	25-3011
Advertising and Promotions Managers	11-2011
Advertising Sales Agents	41-3011
Aerospace Engineering and Operations Technicians	17-3021
Aerospace Engineers	17-2011
Agents and Business Managers of Artists, Performers, and Athletes	13-1011
Agricultural and Food Science Technicians	19-4011
Agricultural Engineers	17-2021
Agricultural Equipment Operators	45-2091
Agricultural Inspectors	45-2011
Agricultural Sciences Teachers, Postsecondary	25-1041
Agricultural Workers, All Other	45-2099
Air Traffic Controllers	53-2021
Aircraft Cargo Handling Supervisors	53-1011
Aircraft Mechanics and Service Technicians, FAA Certified	49-3012
Aircraft Mechanics and Service Technicians, not FAA Certified	49-3013
Aircraft Structure, Surfaces, Rigging, and Systems Assemblers	51-2011
Airfield Operations Specialists	53-2022
Airline Pilots, Copilots, and Flight Engineers	53-2011
Ambulance Drivers and Attendants, Except Emergency Medical Technicians	53-3011
Amusement and Recreation Attendants	39-3091
Anesthesiologists	29-1061
Animal Breeders	45-2021
Animal Control Workers	33-9011
Animal Scientists	19-1011
Animal Trainers	39-2011
Anthropologists and Archeologists	19-3091
Anthropology and Archeology Teachers, Postsecondary	25-1061
Appraisers and Assessors of Real Estate	13-2021
Arbitrators, Mediators, and Conciliators	23-1022
